Re: Reeves-Hecla Proposals

*Report
 w. 119*

Enclosed herewith is my report on the Reeves-Hecla proposal which contains information expressed at the meeting held in Mr. McMynn's office on February 4, 1975.

It is assumed that the readers of this report have access to the "Proposed Project for Exploration and Development of the Red Bird Property", dated January 17, 1975.

As stated in my report and at the meeting in Mr. McMynn's office, I strongly suggest that the Government take steps to keep the Remac operation going.

Whatever decision is made, the union at Remac, as well as the Reeves-Hecla people, must be informed of the Government's intentions.
