Dear Mr. Fyles:

In answer to your letter of November 15th, we are enclosing the following:

1. Red Bird Tunnel Map showing geology and sampling,
2. Red Bird Surface Map showing geology, claims and topography,
3. Red Bird Surface Map showing drill holes,
4. Red Bird D. D. hole log No. 1,
5. Same - hole No. 2,
6. Same - hole No. 3,
7. Same - hole No. 4,
8. Same - hole No. 5.

The logs of the holes are far from satisfactory. We have had to rely upon old incomplete records made by men with little background for that type of work.

In answer to your question, no work on the ground has been done except for a small amount of surface work and geological mapping.

If we may be of further service, please feel free to advise us.

Sincerely yours,

Robert E. Sorenson,  
Vice President
