LEGEND
ROCK TYPE
ROCK TYPE TEXTURAL CODES
1 MAFIC VOLCANICS
1. Massive flows
2. Pillowed flows, pillow breccia
3. Tuff, ash tuff
4. Lapilli tuff, lapilli and ash
5. Agglomerate (block size frags. > 64 mm.)
6. Tuff breccia
7. Debris flow (1, 2, or 3 depending on predominant fragment types.)
2 INTERMEDIATE VOLCANICS
3 FELSIC VOLCANICS
4 MAFIC INTRUSION
1. Diorite
2. Gabbro
3. Diabase
5 FELSIC INTRUSION
1. QFP
6 SEDIMENT
1. Chert, ribbon chert, chert breccia
2. Chert with argillite
3. Quartzite argillite f.g. wacke
4. Quartz pebble conglomerate
5. Argillite/phyllite
6. Limestone
7. Greywacke (f.g. quartz wackes) / or Greenwacke (contingent on chl content)
8. Limestone cobble breccia
9. Coarse wackes, ? grits, ? sandstones
0. Multilithic pebble conglomerates (with micaceous clasts, argillite clasts etc.)
