Mr. A. M. Ham
Western Exploration Co., Ltd
Silverton, B. C.

Dear Art:

Mr. Alfred Allen, an engineer here, has ninety nine new Ingersoll Rand "Carset" tungsten carbide drill bits of $1\frac{1}{8}$ " gauge for sale. Six of these are chisel bits and the rest are cross-bits: he is asking \$10.00 apiece for the lot. To use these it would be necessary to get steel rods with threads to fit, presumably from the Ingersoll Rand Company. Would you be interested?

Again, I thank you and Elsie for various favors.

Yours sincerely
