OVERBURDEN
Weakly chloritized andesite
Weak brecciation with pyritic dacitic, andesitic porphyries and granite porphyry
Fine grained dacite
Brecciated dacitic porphyry fragments
Strong silicification
Strong chloritization
Strong brecciation
Fine grained porphyry fragments with chloritic matrix
Chlorite in breccia zones
Brecciated andesite
Moderate silicification
Moderate chlorite
Weakly chloritized andesite
Moderate silicification
Moderate chlorite
Weakly chloritized andesite
Massive, unaltered and chloritized to chloritized andesite conglomerate
Moderate silicification
Moderate chlorite
Weakly chlorite
Moderate silicification
Moderate chlorite
Weakly chlorite
Moderate silicification
Moderate chlorite
Weakly chlorite
