RE: DKD 2 082ENW041

This occurrence has been combined with **DKD 4 082ENW043** because it an almost identical occurrence, both are chalcopyrite in shear/quartz veins in rock cuts along the Kettle Valley Railway. They are about 250 metres apart, and there are no old workings on either of them which would otherwise distinguish one from the other.

DKD 2 082ENW041 deleted October 11, 1995
