PEREGRINE PETROLEUM LTD.

82ENE047

DRILL TEST OF URANIUM CLAIMS - Peregrine Petroleum Ltd. has reported that in view of the announcement by Norcen Energy Resources Ltd of high grade uranium value at their Blizzard property near Beaverdell, B.C., some 30 miles east of Penticton, held under option from Lacana Mining Corporation, Peregrine has announced a drilling program on their large Lassie Lake property adjoining the Lacana-Norcen property to the south. The program will involve drilling at least three widely spaced targets and will start soon after the spring break-up.

In addition, Peregrine will drill three targets on its Haynes Lake property located 15 miles NW of the Norcen-Lacana Peregrine area near Tyee Lake Resources' Hydraulic Lake property which contains a significant proven uranium deposit and which is currently being explored by Placer Development Ltd. (See Tyee story below)
