DEPT. OF MINES
AND PETROLEUM RESOURCES

Deputy Minister
Dept. of mines + Petroleum Resources
Parliament Bldg
VICTORIA, BC

Dear Sir:

RE SECTION 71

From the "Motherlode" mineral lease No. M 197 in the Greenwood M.D. and located in the Burnt Basin area 15 miles North of Christina Lake BC we shipped 3 carloads of silica to Trail as per the attached smelter settlements.

The quartz vein is 3' wide, strikes North, dips 65°E into the hillside. Old workings indicate it has a depth of 60', the length is unknown.

Further production of one carload per week is anticipated to start late June, subject to Bill 31. At \$103.⁰⁰ per ounce the proposition is barely economical.

We trust this information fulfills our obligations required under section 71 and if more details are required please advise.

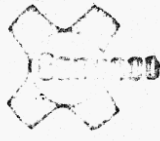

Yours truly

DONNA MINES LTD
