Dankoe Mines Ltd. (NPL)  
Suite 2002 - 1177 W. Hastings St.  
Vancouver, B.C.  
V6E 2K3

Dear Sir:

Please find enclosed a copy of the Accelerated Mineral Development brochure and several application forms for the Accelerated Mineral Development program.

If you decide to fill out an application on your own (on the reverse side of the application form) the three columns may not be completely clear. However, the last column, "Actual Increment" should be left blank as that is for the use of the Ministry. The first column, "Planned" is for the program you had formulated prior to the announcement of the AMD program. The second column, "AMD Increment" refers to what additional program you decided on when you heard of the AMD program.

Most applicants have put their act together in Vancouver--arithmetic, a plan and other documentation--and then brought this information over to Victoria to discuss it with me. I must say, that this is much more satisfactory from my standpoint than getting something in the mail which may necessitate phone calls back and forth, etc.

Give us a call when you've got everything together so we can make an appointment to our mutual satisfaction.

Yours very truly,

W. R. Bacon  
Co-ordinator
