Mr. B. N. Church, Ph.D., P. Eng.
 Dept, of Mines & Petroleum Resources,
 Mineral Resources Branch,
 Parliament Buildings,
 VICTORIA, British Columbia.

Dear Mr. Church:-

I enclose for your use a key to the gate of our mine site at Okanagan Falls. I will also contact a Mr. Gaston Plante of Oliver, B. C. (Phone 498-3272) to leave the lock on the gate in the closed, but not locked, position for the afternoon of April 28. Would you please close the gate behind you on entering as the horses of Mr. Plante are pastured there.

The following figures and content will undoubtedly be of interest to you.

Ore milled -	103,018 tons of 0.20/oz. Au., 4.27 oz/Ag.
Waste mined -	113,919 tons
Stockpiled beside road SW of pit -	1,996 tons of 0.083 oz/Au., 1.79 oz/Ag.

Average mining rate (1 shift, 5 dys.)	1,625 tons/day
Average milling rate	350 tons/day
Average recovery - Au. 90%., Ag. 73.4%	
Average concentrate assay - 15.35 oz/Au.,	268.76 oz/Ag. per ton
Ratio of concentration - 1/84.5	

Total metal produced as per smelter receipts -	18,697 oz/Au.
	327,343 oz/Ag.
	6,335 lbs. Cu.
	3,359 lbs. Pb.

Net smelter return - \$3,433,792.00.
