

BLACK FOX O82FNW095

EMR MINES RE OTTAWA ZINC COMMISSION Rpt #12, 1906 p. 267

- selected below ³ slightly NE of
Bismark & adjoins Conk mine
to the south
- Conk - Province vein is supposed to be near
Black Fox, & Daisy.
- 150' cross-cut cut a vein (prob not the
Conk vein) 100' from portal. There are
several parallel veins in district, only a few
inches of zinc blende are seen in vein
which is 4' wide. Selected pieces of zinc
assayed 36.6% Zn & 2.3% Ag. Only a
small quantity of ore is exposed. ^{1/6}
However, surface shows it quite strong &
can be followed over 200'. Vein dips 50°
SE.
