REF ORR J., (1971): UBC thesis - MINERALOGY &  
COMPARISON ORIENTATED STUDY OF MINERAL DEPOSIT IN  
SEACOM CITY CAMP.

p 21: has native gold or electrum as tiny grains in gk

p 23: Galena is apparently barren of silver in solid solution  
based on electron microprobe analysis. ~~It does~~  
~~contain blobs of pyrite, as well~~ (may contain  
blobs of pyrite, native silver, & occ. native Au)

p 27: stephanite has been positively identified

EMPR EXPLN 1986 - C70: underlain by lower Cretaceous  
upper Jurassic Nelson Batholith granodiorite where  
shear zones contain etc veins mineralized with  
native silver, PbS, & ZnS. weak coincident  
Ag - Pb soil anomalies. <sup>88/</sup> soils
