O 82FNW212

March 7, 1929.

Mr. O. C. Thompson,
Salmo, B. C.

Dear Tommy:-

I have copied part of the report that you read on the L. H. Mine the other night, and have re-written other parts of it. It sounds somewhat more favorable than the original one did but I do not think unduly so.

Without going over the property again I do not feel like definitely recommending it to you or anybody else, but I do think it is well worth spending some time on a further examination there and I shall plan to do so when the snow goes.

If the proper terms can be obtained - and I think they can - it might make a fairly attractive property and as good a chance for a mine as most of those that are being highly boosted. In some respects it resembles the Howard mine.

Yours very truly,

Chas. C. Shaw
