New Campbell  
gets ASE listing

New Campbell Island Mines has been listed for trading on the Alberta Stock Exchange. The company is involved with **Chipman Mining and Energy** on three oil and gas properties in Saskatchewan.

Oil production on two of four wells drilled in the fall of 1984 has begun. The producers are on the Evesham-Macklin property. New Campbell hopes to have 40 producing wells.

The company also has an 80% interest in the Mammoth claim group near Revelstoke, B.C. The precious and base metals bet will be explored in the spring of 1985.

New Campbell has no long-term debt and cash in the treasury.
