Fig. 1.

**Note:**  
 Samples in "Annie M" shaft and also in "93" were taken at 25' intervals on incline in "Annie M". Incline sample #1033 taken 3'-0" above bottom of shaft and was intended as check on sample #3293 etc. (Possibly samples 3293 to 3291 are not plotted in their proper positions.)

Assay notations are in the following order -  
 Sample width - Gold - Silver - Lead - Zinc - Arsenic.  
 Number in feet -  $\frac{\text{ft}}{100}$  -  $\frac{\text{oz}}{100}$  -  $\frac{\text{lb}}{100}$  -  $\frac{\text{g}}{100}$  -  $\frac{\text{arsenic}}{100}$ .  
 \* Gold at \$20.00 per oz.
