

**LEGEND**

- Predominately talusite
- Quartz porphyry and quartz porphyry breccia
- Andesite altered andesite and felsite
- Volcanic and flow breccia (Largely felsite)
- Limestone
- Copper, lead, zinc mineralization
- 0.5% pyrite contour
- 1.0% pyrite contour
- Defined contact
- Approx contact
- Assumed contact
- Defined fault
- Approx fault
- Assumed fault
- Outcrop
- Traverse across outcrop(s)
- Rock fragment
- Road
- Adit
