

LEGEND

- Drift and alluvium
- Granite, granodiorite, intrusive rocks
- Kamutson volcanic rocks; basalt flows, pillow lavas, breccias, diabase intrusions.
- Intrusions of diabase
- Lower sediments, argillites
- Henshaw Formation
- Conglomerate, siltstone, conglomerate, greywacke, ash beds
- BUTTLE LAKE FORMATION
- Mainly limestone, thin bedded sediments
- Lower Division
- Mainly sediments, argillites, cherts, tuffs
- Volcanic tuffs, pyroclastic rocks, breccias, some volcanic flows, diabase intrusions.

SYMBOLS

- | | |
|---------------------|------------------------|
| Geological boundary | Bedding |
| — defined | — Strike and dip |
| - - - approximate | + Vertical |
| ... assumed | + Horizontal |
| Faults | — Joints |
| — defined | Foliation |
| - - - approximate | — Schistosity with dip |
| ... assumed | Mineral Prospects |
| | X |
| | ← Glacial striae |
