

BEATON GROUP

ALBERNI MINING DIVISION

SCALE: 1" = 750'

To accompany report of C.C. Starr, August 1941.

007042

NOTE:
 The Golden Eagle Crown Granted claims are plotted from a small-scale map said to have been copied from a Government map.
 The Beaton Group is un-surveyed, and approximate only.
 The exact relative position of the two groups is uncertain but is believed to be approximately as shown. Certainly a considerable part of the Beaton Group, as located, is held by the Golden Eagle.
