

Keegan (Gem)

092F367

1994

COOMBS: SLN Ventures Corporation: 92F/1,2,7,8: Craig Payne  
(469-2642)

Company planned IP survey, mapping and soil geochemical programmes in 1993/1994 (NOW).

\*\* Company has received a MEIP grant for further exploration by detailed geological mapping, prospecting and soil sampling along the strike of the known mineralization. See VSE Filing Statement for details of geology

Craig expects to be working on property in September/October and will give a call beforehand. The property is worth a visit, it has a trench showing good skarn mineralization, but is difficult to access.

Take road south of Coombs, right on Grafton Road to the end. There are two gates: (1) Fletcher Challenge (call Crofton Office) for east side of French Creek; just beyond, there is a (2) Mac Blo: gate. This is not locked. Take second left, road to south to find a third gate (3) This is welded! Trenches on east side of road on west side of French Creek. Hike of approximately 3.0 km and 700 metres ellevation from welded gate!!!!

Private placement in place 7th September (CS).

No programme this year (Craig Payne, pers comm. 1st Nov.).
