rocks on the N facing slope of  
Richards Cr showing 3 units mapped:  
ribbed ls, micritic ls & bioturbated  
dolomite.

946010 946/12W.

Plate XX1 A

Gen 73

South-facing slope of Richards Creek showing three thrust panels. The lowest panel of Dunedin (Dd) and Besa River Formations (Dbr) is overthrust by the Stone (Ds) and Dunedin Formations which in turn are overthrust by Cambro-Ordovician (CO) rocks and the Silurian (Sn and Sn<sub>q</sub>) Nonda Formation.
