

Summito^{in m}
~~Summito~~ summarized Jan/76

Sheba

Sumitomo 1967-68

IP survey - no important anomalies

Bulldozer trenching $3\frac{1}{2}$ miles doneDrilling 6569 feet in 15 holes & 5250' of
percussion drilling in 21 holesHistory 1957 Asarco - mapped on reconnaissance basis1958/9 Kenneco - some work on Sheba
much on Gnarred Mtn. Some silt samples
(1958) + a single IP line (1959), mapped
at 1000 scale in 1959.1961 Pecl - discovered JAY 101 during
a road building program. Then trenching
& drilled.1963 → 1965 Anaconda - thoroughly tested
JAY 101; mapped, ^{soil} sampled & IP survey
elsewhere. Drilled a few holes. Concentrated
on S + W parts of the property.1967 Sumitomo - 45 mi of picket line
& 4 mi of baseline cut - then IP
survey then

Oct/1974

Report by DB Petersen for Sheba / Lornex

Lornex has percussion drilled Dawn ^{1 to 5 & 7} ~~1 to 8~~ claims
and Lynn ^{1, 2, 4 + 6} ~~1, 2, 3, 4, 5, 6, 7, 8~~ claims for potential

(ten holes).
dump areas. Lornex apparently has now

acquired these tested areas & results

negative. Lornex also bought Lynn 8 & 14 to 16.

+ Dawn 6 + 8. Note did not get Lynn # 1 albeit

it too tested negatively.
