

**LEGEND**

- Lower Cretaceous**
- Kingsvale Group. Breccia, tuff, basalt
  - Spences Bridge Group. Dacite porphyry
- Jurassic and (?) Later**
- Porphyry dykes
  - Dioritic rocks
  - Meladiorite
  - Contact breccias, diorite matrix
- Upper Triassic - Nicola Group**
- Andesitic flows & agglomerate, tuff, basalt
  - Microdiorite
  - Mainly greyish coloured tuffaceous sediments
  - Rhyolite tuff and tuff breccia
  - Limestone, minor tuff, agglomerate, argillite
- Structural Symbols**
- Strike & dip of beds
  - Strike & dip of foliation
  - Strike & dip of schistosity
  - Fault, defined, assumed
  - Contact, defined, approximate, assumed
  - Inferred fold axis
  - Outcrop boundary
  - Copper occurrence
  - Pegmatite
