Dear Shareholder:

Your company is in the process of acquiring 97% of the outstanding shares of R.K. Resources Ltd. (subject to approval of regulatory bodies) which owns the following 3 mining properties, recommended by our consulting mining and geological engineers, L.J. Manning & Associates Ltd.

1. GOLD CLAIMS NEAR TATLAYOKO LAKE, B.C.

This claim group covers a swarm of quartz veins enriched with gold and silver in a pattern that appears to continue along a 200 foot wide band of prominent intrusive rock which can be visually traced for several thousand feet in strike length. Results provided by the original prospector-owner of the property on chip samples returned the following assays:

<u>SAMPLE LOCATION</u>	<u>WIDTH</u>	<u>GOLD (oz/ton)</u>	<u>SILVER (oz/ton)</u>
