The Deputy Minister of Mines,
Victoria B.C.

Dear Sir;

The re-opening of the Duthie Mine necessitates the preparation of an informative circular providing past history, and in this regard we would very much appreciate your assistance.

We would like to borrow from your Department the following cuts from Annual Reports;

- (1) 1934 - N.E.District, pp C 10; cut showing cross-section of Duthie mine.
- (2) 1928 - N.E.District, pp C 192; -the two cuts of the Duthie Power House and the Steam Turbine which face the above page.
- (3) 1928 N.E.District, pp C 176; cut showing the Duthie Mill.

If the cuts are no longer available, perhaps you could be good enough to let us have the photographs long enough to have them re-photographed for reproduction.

Any charges in this connection will be promptly forwarded upon advice.

Yours very truly,

DUTHIE MINES (1946) LIMITED N.P.L.,

Dear Sir:

Re your letter of July 2 asking the use of illustrations for a circular re Duthie Mine, I would say that we do not supply illustrations for such purposes. Further I would point out that the illustrations which you request are from 12 to 18 years old.

Yours truly,

HS/rc

Gentlemen: 0006

Will you please forward me all the information you have pertaining to the general geology in the area of Smithers, B.C. Especially all the information you have on the Duthie Mine, as a group of us here are considering reopening this property.

You can send the information collect or you can forward it with statement attached and we will send you a check covering the same.

Thanking you in advance, we are,

Yours Very Truly,

D.S. Paterson

Dear Sir:

In response to your letter, dated December 31, requesting information relating to the general geology in the area of Smithers and all information on the Duthie Mine, we are sending you herewith pages from the Annual Report of the Minister of Mines for 1921, 22, 23, 24, 25, 27, 28, 29, 34, and 40 relating to the Henderson property and the Mamie property in which the company was interested, and giving some information concerning adjoining or nearby property on Hudson Bay mountain.

Some more general geological information can be obtained from publications of the Geological Survey of Canada for which you should send your request to the Chief Geographer, Geological Survey, Department of Mines and Resources, Ottawa.

Yours truly,

Chief Mining Engineer.
