Box 322

1045, 29

Watson Lk. Y.T.

July 24/69.

Dear Dave.

I am sending a map tube, parcel post, containing the pitquah geology and trenches. Also a map of the area covered by Howie at the North end of Dease Lk.

The cross sampling is as follows:

Sample No.	Trench no.	From.	To.	Length.	Est'd % Ca.	Cl. Assays
179	3 (90W)	30+80N	30+40N	40'	.1	0.27
180	"	30+40	30+00	40'	.25	0.10
181	"	30+00	29+60	40'	.2	0.07
182	"	29+60	29+10	50'	.2	0.10
183	"	28+55	28+30	25'	.45	0.27
184	4 (94W)	27+40N	28+00N	60'	.15	0.05
185	"	27+00	27+40	40'	.2	0.10
186	"	26+60	27+00	40'	.25	0.17
187	"	26+20	26+60	40'	.25	0.12
188	"	26+20	25+80	40'	.4	0.27
189	"	25+80	25+40	40'	.2	0.07
190	"	25+40	25+00	40'	.1	0.07
191	"	25+00	24+60	40'	.1	0.07
192	"	24+60	24+20	40'	.15	0.05
193	"	24+20	24+00	20'	.15	0.07
194	5 (90W)	26+20N	25+80N	40'	.15	0.12
195	"	25+80	25+40	40'	.15	0.10
196	"	24+40	23+65	75'	.1	0.07
197	"	24+20	23+70	50'	.1	0.05

Samples were shipped via Air Mail & via CN Express to Chibougamau.

Weather is rotten - has been for the past week. Howie is presently at Edasp Lk. I have been waiting 3 days to fly out to Edasp Lk but it is still socked in and raining. I have enough canned food & non-perishables here at Dease Lake til the middle of September, so it will leave only fresh meat & vegetables to be picked up from Watson every 2 weeks.

Regards Myles.
