Box 59  
Atlin, B.C.

October 5, 1972

Dear Bill:

Hope this reaches you okay. There has been a fair amount of activity in the Rainy Hollow district in the past month or so - as you can see, most of the information on staking has not reached Victoria yet. I spent quite a bit of time putting the enclosed map together from the staking maps filed in the Atlin office. As of this date there is approx 1 foot of snow on the highway in the Mile 48 area. I have scribbled general information on the showing on the map - should you require more give me a holler by phone. Should you require any ground in the area let me know.

Regards.  
Jim.
