

OF THE EUREKA PEAK AREA

GIANT COPPER - Cu, Ag, Au

GIANT COPPER
The Giant Copper deposit is one of the largest copper deposits in the world. It is located in the Eureka Peak area of California. The deposit is a massive, high-grade copper sulfide body that has been mined since the late 19th century. The mine is currently owned and operated by Freeport-McMoan Copper & Gold.

CATFACE COPPER - Cu, Mo

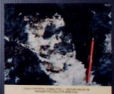

CATFACE COPPER
The Catface Copper deposit is a large, high-grade copper-molybdenum deposit located in the Eureka Peak area of California. The deposit is a massive, high-grade copper sulfide body that has been mined since the late 19th century. The mine is currently owned and operated by Freeport-McMoan Copper & Gold.

MERRY WIDOW - Au, Ag, Cu

MERRY WIDOW
The Merry Widow deposit is a large, high-grade copper-silver-gold deposit located in the Eureka Peak area of California. The deposit is a massive, high-grade copper sulfide body that has been mined since the late 19th century. The mine is currently owned and operated by Freeport-McMoan Copper & Gold.
