A photograph of a geological site. A large, reddish-brown rock face dominates the left and center of the frame. The rock shows distinct horizontal layering and some vertical fractures. In the lower-left area of the rock face, the words "ZONE 2" are written in black, hand-painted letters. To the right of the rock face, a person wearing a red vest, grey pants, and blue boots is standing on a rocky, scree-covered slope. The person appears to be working or observing the rock. In the foreground, there are several large, dark grey rocks. A red measuring rod or scale is visible in the lower-left foreground, partially obscured by rocks. The background shows a steep, rocky hillside under a clear sky.
