671210 Lion Claims 93m/16

April 7, 1977

Mr. G. Auger, P.O. Box 1055, Smithers, B.C.

Dear Gerry and Monique:

Enclosed is an index map at 1" - 4 miles showing the location of the larger map (1* - 500*) of the LION CLAIMS 1 and 2. These total 38 units to cover approximately the same ground we had in 1973.

We would like to have these claims staked as agent for J.C. STEPHEN License No. 153883 Issued February 16, 1977.

The two legal posts are indicated at 1640° and 3280° north of the main creek as I thought they could be most accurately located from that point. If necessary, however, you are of course at liberty to place them at some other location.

We assume that if you have more than one 206 load to move your camp in that you will make arrangements for a fixed wing to take the gear to the nearest practical place tather than have two full round trips by helicopter.

Invoices can be sent directly to me which will probably be ok with Bloomfield. However the fixed wing people probably never heard of me so I will leave that up to you. As you may know there is some stiff competition in helicoptums and it should be possible to get a 206A at about \$265.00 per hour.

Very best regards,

J.C. Stephen

JGS/ms
