

SATURDAY
March 24/79

A.U. SYNDICATE

Head Claims

owner John Clark

Garibaldi Highlands.
(Squamish.)

(A) altered diorite - all showings
in places very altered -
- 2 places with
cpy + Tetrahedrite

(B) 2 main zones of schistose
volcanics probably large
"pendants" or rafts

- Not a copper prospect.

- wait for gold assays

- J. Clark may spend some time
at a lower elevation looking
for more pendant rocks.
