

Chris Pfeiffer has finally acquired by option one of the 3 properties in the Powell River area that I examined on Nov 17, 1969. As his request no report was written as the negotiations fell through but a few notes were put together.

at the time it was felt that an <sup>\$</sup>80,000 recommendation was warranted.

Since then, Pfeiffer has had the area prospected and turned up the MIKE showing with chales and moly. The accompanying samples are reportedly from there. I have not seen the property. He has 15 claims on this group.

Pfeiffer has optioned the Bruce group from Mary Boylen and requests that we examine the Bruce showing again as well as the new Mike showing and put together a report. He would like a report in excess of ~~\$100,000~~ <sup>150,000</sup> recommendation.

The full Falconbridge report is available.

Please phone him at 985-6982 and let him know when we can go to the property. I mentioned that we should be able to finish up things by the end of May.
