Mr. T. J. Gordon  
LITTLEFORK, B. C.

Dear Tom:

Please note the enclosed copy of assays relating to the samples taken by me during my recent visit to your DAISIE group of claims close to the south end of Franklin Arm, Chilko Lake, B. C.

I am sorry to say that we do not consider these results to be good enough to justify our Company going ahead with any ideas regarding exploring the exposed areas any farther. I am sorry that I did not sample the northerly end of the upper showing, but I believe that comparable results would have been obtained.

Thank you for bringing this property to our attention. I hope that if you have any luck in the Bonaparte Lake area that you will contact us once again.

Best of luck,

Yours truly,

*Jack.*

We Hereby Certify that the following are the results of assays made by us upon submitted Ore samples

MARKED	GOLD		SILVER	COPPER (Cu)	TUNGSTEN	TOTAL MOLYBDENUM	PER CENT.	PER CENT.	PER CENT.
	OUNCES PER TON	VALUE PER TON	OUNCES PER TON	PER CENT.	PER CENT. (WO <sub>3</sub> )	PER CENT. (Mo)			
		\$							
41852				0.87	0.18	0.005			
41853				0.92	0.02	0.005			
41854				0.77	trace	0.005			
41855				0.08	0.98	0.005			
41856				0.07	0.39	0.005			
41857				0.10	0.02	0.005			
41858				0.48	trace	0.005			
41859				0.48	trace	0.005			
41860				0.05	1.21	0.005			

Gold calculated at \$.....per ounce

Note. Rejects retained one week.  
Pulps retained one month.  
Pulps and rejects may be stored for a maximum of one year by special arrangement.

Unless it is specifically stated otherwise, gold and silver values reported on these sheets have not been adjusted to compensate for losses and gains inherent in the fire assay process.

/ps
