

# 3197 RAVEN 125° 56 56° 30 LT Long. R.G. McCANDLESS

RAVEN 1-10 17-21

Geochem soil anomaly 4000' x 200-300

Geol mapping mainly on RAVEN 2, 3 + 5 + little on 1, 19  
4 + 6

Soil anomaly trends east across ~~RAVEN~~ SW corner  
Raven 3 + NE 6 (2 bands) ~~then~~ to SW 19 + across NE 20  
at + 300 ppm Cu trending along creek. Increase in Mo + 10  
on same trend. No important Zn 20-30 N. Three spots of Co  
over 70 ppm

Recorded Co showing west of RAVEN  
9 rock samples across 25' width of gossans carried comparable  
copper to soils
