NEWS RELEASE

FEBRUARY 8, 1993

Mr. J. Frank Callaghan, the President of Wayside Gold Mines Ltd. and Brigadier Resources Ltd., reports:

To date, seven drill holes have been completed, totalling 1,700 feet, all successfully, which intercepted the Notman Vein structure from the 9th level of the underground workings 550 feet below surface - assays will be forthcoming. The target was Chevron Minerals 87-1 hole which was drilled from surface and intercepted 5.23 of 1.84 ounces per ton of gold at about the 9th level. "Between 5-9 levels if the vein is continuous it may contain significant tonnage, estimated at 58,000 tons." (Sampson 92). Drill hole 93-8, in progress, from the 9th level is targeted at the Main Vein and is being drilled at -55 on 065 degrees to test the down dip extension. There is a well ribboned mineralized quartz vein in the first 15 feet.

The hole will be carried to 400 feet and several intersections are expected. The target on this hole is the 15 feet of 1.76 ounces of gold per ton. Intersection by hole 80-S-10 in this structure has also been intersected by Chevron's 1987-88 drill program as well as the companies' 1991 drill program which "show approximately 300 feet of gold bearing ground occurring on the Main Wayside Vein between the 9th level and the drill intersections. At an average width of ten feet, and a strike of 200 feet this would contain 50,000 tons" (Sampson 92).

With the companies' flow-through financings completed, an additional 10,000 feet underground drill program has commenced on the 9th level. This will be the largest underground drill program in the project's history. Two underground drills and operators will carry two shifts per day each.

The companies' have hired Can Am Media International Inc. for its investor relations for a period of three months.

The companies' Wayside Gold Mine, located in Goldbridge, B.C., is located near the Bralorne, Pioneer and King Mines. Collectively, the camps have produced over 4.2 million ounces of gold and over 900,000 ounces of silver.

ON BEHALF OF THE BOARDS

J. Frank Callaghan,
President
