

Science L:

Notes to
Mum Apr 19

Mining will be finished in
early June - open pit only.

Underground are started August
~ 5000T ($\frac{1}{2}$ of total) underground.

Drift on are - one intersection
~ 150' back from pit wall,
then ten deep holes

Waltham gave up 7 hours of mining
and more drilling. Anderson
locks drilling funds. 20,000'
of drilling - very negative,
disembodied by thrust faulting -
no continuity. Ray Walsh
negative. Dropped. No more Yagels.
