MESSAGE

Kew Dawson: Re - Sulphur Isotope Samples

On or about Sept 30/83

Grant STEWART of Watson Lake, Yukon
sent a sample of Barite and
galena to you in Vancouver
(Case office).This sample was obtained
from the Barite exposed by stripping
in July /83 from the south end of
the MOOSE Barite Deposit nearFIRESIDE B.C. This Barite is approx
3.5 miles north of M.P. 549 on the
ALASKA Hwy, or 3.5 miles NE of OREGON LAKE.The sample was obtained from
a location close to $127^{\circ}15'W \pm 59^{\circ}45'30''N$
Can send you other Barite cores from
deposits in this area. Sincerely,

USE LOWER PORTION FOR REPLY
