TILLICUM MOUNTAIN - PROGRESS REPORT NO. 83-5

October 21, 1983

Underground Program Initiated

An underground exploration program has been initiated on Tillicum's East Ridge zone. An exploration adit will be collared at the 2120 metre level within the next 10 days to provide access for bulk and detailed sampling of several gold-bearing horizons encountered in the surface drilling program.

The East Ridge diamond drilling program is nearing completion and has defined a mineralized zone with a strike length in excess of 1650 feet that remains 'open' to the north and south.

Results are still pending from drill holes which have been completed since our last report on October 11, 1983.

Submitted on behalf of the Board of Directors,

ESPERANZA EXPLORATIONS LTD.
"IRENE WILSON"
DIRECTOR

LA TEK0 RESOURCES LTD.
"J.R. BILLINGSLEY"
VICE PRESIDENT
