

Mt Mc Clennan Scourus.

Red Top - Snow Bird - Sunrise

Naomi

1915 (MM, K 211) George Fennell excavated shafts & open cuts on the Redtop.

1922 (MM, N146) Mr. Morrison has done considerable work on the Naomi claims.

- Flat dipping schist - common
- Concordant siliceous NW streaks
- 30' Tunnel.
- Assays from open cut above tunnel
 - 4.5' - Tr. Au, 10g Ag
 - 5.0' - " " , 2.4g Ag
 - grab - 2.9g Au, 2g Ag. "black streaks"
- 600' E of tunnel
 - Tr. Au, 15g Ag.

1923 (MM, A155) Neil Morrison working on stakeing & staking

- Last Chance & Naomi building cabins.
- Mr. Angus Beaton & Assoc. Investors.
- Red Top claims staked by others adjacent on the NW.

1924 (MM, B150) owner J. Beaton of Varenky now called Sunrise group.

- lots of work done since 1922 Examination
- "Grey copper" 4.6g Au, 2.2g Ag. small and erratic streak.
- 50' shaft & a number of open cuts recently excavated to prove large low grade body.

Noble group 2 mi NW of Sunrise, Mr. Noble is sinking. 1g Ag, 24% Pb, 35% Zn.

1927. (MM.-C191) Redtop (WENoble & assoc.)

- EL about 4000'
- Silver-lead-min. along 2000 ft.
- schist, LS, Qtzt dip* 45° North
- open cuts - min. 12'-18' wide
- selected samples \$100/ton.

1929. (MM.-C223) Redtop #1 & #2

- EL 4000' on ridge
- Typical PE formation
- 3 parallel bedded seams in 30', traced for 600' in 5 open cuts.
- Ore aggregate thickness = 4.5'
- Best 1 seam 8' T Pb-Zn.
- Dip 35° E* strike WSW
- granite body, anophy dikes

assays.

	Au	Ag	Pb	Zn
8'	Tr	1.2	Tr	8.6
3'	Tr	1.0	1.0	Tr
2.5'	.02	1.4	2.4	12.2
4.5	Tr	1.0	Tr	4.0

- Dips toward granite contact
- Further exposures 3/4 mi to the west on Snow Claim of Mr Noble. Heavily galeon. Some x-lalini LS. in section. Formation disturbed

assays:

	12"	.03	26.3	62.2	4.0	
pyritic silicified	?	.02	1.4	Tr	3.6	
	?	Tr	1.6	Tr	3.4	Cu 1.6

- to the SW toward granite, heavy silicified bands containing Po & Zn.

1966 (MM, 144) - Crow Pat Minerals Ltd, 365 Bay St

- J.P. Ellwell, Tom Smart 682-2120

- 2000' Drilling - Oct Nov Dec

- Sinkad & Lucky Star claims

* Assessment report #436 DIP NEEDLE ✓
GEOLOGY.

APP examination June 1966.

1971 (MM, 442) Calbay Mining Corp Ltd, 1307-1030 W Geo

- 179 claims

- 2 mi rd wks

- 2700 cu yd trenching

- 1218' drilling 5 holes.

Calbay Built concentrator

Geological Survey. Dip needle.

1975 - Sunrise staked by Ken Dawson.
& Geochemical Survey
carried out

1976 Additional claims staked
Property acquired from
Ken Dawson by Castleman.
