

Apr 13/95

WIT GEOCHEMISTRY

Trust add's (No)

- Barium Good definition
Highlights main showing.
- Zinc Similar to Barium but
a little more broad.
- Lead Similar to Barium but
tighter definition.
- Copper - Very broad
- Silver very tight on main zone
otherwise a few scattered
singletons
- Arsenic Defines main zone and
gets strong to west otherwise
spotty
- ★ Gold - * poor definition of main
zone
- lots good clusters for
prospecting to ~~the~~ elsewhere
on the property.

Programme

1. Trench main

2. DRILL main

3 Trench "42 level" anomaly.
