Dear Robert:

Enclosed herewith is your report on the Ahousat gold property that we discussed in my office recently.

It is an interesting prospect that warrants further work; however, we are not able to make you an offer at this time due to the priorities of other projects.

Thank you for giving us the opportunity to look at your prospect.

Yours very truly,

BARRIER REEF RESOURCES LTD.

Dear Bert:

I have reviewed the report on the Au Property, Tofino Area, Alberni Mining Division. Although the data is very scanty, the quartz veins though occasionally high grade and very narrow and prospects of finding economically mineable widths are only moderate. However, reference is made to "gently dipping pyritic zones" in "gneissic volcanics are metadiorite." These zones are not described in detail but sound rather intriguing and carry values as high as 0.15 oz Au/ton over 1.5 feet.

I would recommend a property examination and sampling of all the showings before any further decision is made.

Yours very truly,

KERR, DAWSON AND ASSOCIATES LTD.
