Alan Savage, President,
Doublestar Resources Ltd.,
#202 – 1555 Marine Drive,
West Vancouver, BC, V7V-1H9

Dear Alan,

Since June 28, 1999 my company [Albert F Reeve Limited] has been a party to a joint venture mineral exploration program on Vancouver Island. I became aware of Doublestar's interest in purchasing the British Columbia properties of Falconbridge in late August. Some of the Falconbridge properties are located on Vancouver Island. As a director of Doublestar, an apparent conflict of interest may arise for me should my company, as part of the joint venture, acquire as planned mineral claims adjacent to one or more of the Falconbridge properties.

Yours truly,
Albert F Reeve Limited

Albert F Reeve, President 

Hi Burt -

Sorry this is so late getting
to you (ORIGINAL IN THE MAIL TONIGHT!) ,
but I was under the weather and
asked my son to deliver it to
Post Office but it got buried when
a pile of paper work came in.

Thanks again for thinking of me
and remember, if you need a
break come on over and take in
a play. Don't tell your wife but
the shopping is terrific at this
time of the year too!

Best Regards
Ray

Tel 604 688 3584

Dear Haig,

Enclosed herewith are copies of the research and compilation reports on our Nova Scotia properties. Also enclosed is a copy of my progress report dated March 12, 2000, which I forwarded earlier by e-mail. Did you receive it? In general, Nova Scotia has been a disappointment. Nothing we have seen there exceeds the quality of the PICH claim on Vancouver Island as a seismic target.

My apparent conflict of interest problem with Alan Savage's company [Doublestar Resources Ltd] has been aired, and Doublestar is committed to purchase the property adjacent to the PICH claim from Falconbridge. It may now be the right time for Eighty- Eight to buy, at cost, the PICH claim from Fractal, Whytecliff and Albert F Reeve Limited. Since Jurgen is the only person, on the Eighty-Eight board, without an interest in this, it would ultimately be up to him. Give me your thoughts on this.

Otherwise, I am still on the look for the ultimate Zinc Prospect, anywhere, notwithstanding the excessive amount of year end paper work that is the usual domain of overpaid lawyers and accountants.

Yours truly
Eighty-Eight Resources Ltd

RE Staking the Pich Claim

[three pages, including cover]

Dear Roy,

Enclosed are 2 sketch maps showing the proposed location of the 20 unit, Pich Claim, which we discussed to day by telephone. It is the former location of the Smith Claim, owned by Laramide, previously staked by you and Ivor Watson. You agreed to stake the Pich claim for a fixed price of \$2000, including recording fees. When the claim has been recorded, please forward a copy of the receipted recording form. We will pay you \$2000 upon receipt of an open transfer from the licensed staker. The name of the transferee should be left blank so that the name of our client can be inserted later. Thank you very much for your help. If you need any further information, please call.

Yours Truly
Albert F Reeve Limited
