

June 1/73
Phone Ruthford (Ruddy) Day & advise going to Allen

on Monday: 1118 Southwest 8th Terrace,
(Ludley Davis) Fort Lauderdale Fla 33315 305/527-0368

my given
as address
until mid-
April Ruddy
March 6/73 letter
& me

(a) Confirm span of placer claims Wright, Otter, & Spruce Creeks

(b) " " " showings on Lucky Group (plus lots 5643-44-45-46-47-48-49-50)
Do but note these are not on Union Mtn as indicated by name of
Connollys Co. Union Mtn. Mines Ltd., but are at east edge of
Allen - Ruddy fully aware of this.

(c) Claims on Monroe Mtn recently stated by T.O. Connolly around
Do ~~T.O. claims around a 15-claim C.G. group~~ - Don't
know whether or not any showings on T.O.C. claims, so
couldn't say whether or not this is with a look

(d) Was my letter report on the Engineer Mine (Togesh L.) forwarded
Rec'd from your Bethesda Md. office.
do not
examine

Enter time:
Travel - - - - - 1
Field, placer - - - - - 3
" , lode (Lucky Grp.) - - 1
Conting. 1 extra in field - 1 1 + 5

* Call Jerry & tell him on my Monday (per R. Day request)
- Call Ruddy before returning to Van,
from Tom's house or (prefer) from hotel
Ruddy suggests I take all additional time that
I need - - w.s. index could be 5 field days.

W. Sharp notes re:
800752 R. Day

Riverwood Res.
Dusty Mac.

Phone Call from R. King } Aug 8 eve
Jim Wallace } @ Bralorne

Jim Wallace's Ideas:

Spruce Cr.
Hole D-7 cut on Spruce Cr., spend old shaft, just below Mattson claim.
Just across bridge Fr. ours & Osborne Cr.

Otter Creek. - - - -

- Check claims - also coverage W.S. that's needed, adding
- Work to do on lower Otter Creek.

Wright Creek

Going down old shaft and have look at bedrock as exposed by both tunnels
WMS. promised Jim Wallace/Puddy that if he had ideas additional explor. for this year, he would advise via a memo (Aug 17-20) note # Aug. 17.

X On return to N. Van, WMS is to summarize all of his costs (feet expenses of team & report) and proportion out to Otter, Wright, Spruce & the 2 lode prospects
X note these must be filed in Otter by Aug 26th
As to WMS suggestion Tom & Shirley will

- (a) list what amount of money costs (unless) is required for each of the groups
- (b) list wages, sales, & other expenses (in addition to WMS feet & expenses) for each of the groups

~~10.9.25~~

Send to Shirley/Jim via a Statutory Declaration of (WMS) Expenditures

Probably the geophysical (trial) seismic and resistivity surveys can be done later this year or next season (Phil has given Puddy costs of each type)

Sept 18/74
Please talk ^{w/} Puddy Day - ~~requested~~
he phoned 2:00 - 2:30 P.M.

- Allans 4th drill map of Otter Creek not significantly different from the one we have, except that it is better draughted, on a larger scale & hence more legible. ^{no topog contours, though} It would be good to have it if you could make out and Allan could reach a mutually satisfactory price.
- Allan concurs w me on opinion that Lambell excavator not at all applicable; he notes he has already given this opinion to you verbally.
- Allan agrees & concurs w me that O.D.-permeation drill really worth a try on br. profiling & perhaps on sampling. Expect holes could be drilled for less than $\frac{1}{4}$ cost of churn drill holes; hence ^{2x} up to 4x as many could be put down, if ~~meaningful~~ desired or necessary.
- Allan notes Debraum (Tri-cone) ~~excavator~~ or other lighter rotary drill might be faster, cheaper & more efficient than a churn drilling. Possibly Allan will (+ associates) will buy a surplus rig, mount it on a Rodwell. If so they would ^{put} ~~could~~ make it available on a rented (or contract) basis. Options: largest air line avail (see file) ^{per for client.}
Rotaries tri-cone w carb bits
Churn drills (slow rotary - just 1/4 ft.)
- * Allan
1. Has good ge map of Spruce Creek - showing drill holes & yearly production data.

Cash Flow - Nevada to feed 1975 Allans program.

Ruddy Day / Security #
Yukon (1-placer)
near
atten: } 1-lode

Tommy Connally
Atten 134

Holes, lode & placer → Canadian Mine Services
(could stand further)
check out -
W.S. states O.K.

C.P.A. direct to Whitehorse daily (Sat & Sun?)
you get car @ atten & drive out
W.S. notes:

Should have gen. description of deposit - to
facilitate preps for job.
Augers?, mag, etc etc?

Could check out George Spalding reliability
for keeping any info confidential.

W.S. could advise Ruddy of any opportunities (placer or lode)
W Ruddy would enter parties by purch. escrowed share positions (a)
make 2-3 day trip Sept 9
