

800788
Kleanza Mines

Note recommends Dec/66 implemented in part relevant to Revised Summary & Conclusions ^{revised & up-dated} Summary & Recon. Hleanza Report, Dec/66, to incorporate + E.C. subsequent work done + revised SOR of St. Cat.

- Replaced prelim explor grid w new transit-controlled grid on 7000' \pm . Through orig ON/ON reference; limits 25 W. & 52 E.

1000 N. & 1500' S. & 1000 S.

Grid to be completed over Gem areas. ^{W $\frac{1}{2}$ E $\frac{1}{2}$}

Note from 28 E - 52 E no grid to North

- up-date - 300 scale, incl. Arcus - Epelson ^{grid to South completed}
Also up-date claim maps pending receipt of R.A.B. data.

- Cut strip explor along 2000' (+) of base-line
Construct road from Epelson to Gem showing this includes concid. road strip.

This, plus exposures on map pending from Dick

* This should be geologically mapped.

* Considerable silt-sampling by R.A.B. (all at Tutupur?)

- The's mapping; this converted to 300-scale by R.A.B.

- * Don Small provide printable detail of the agreement w. Titan (Nippon) Minerals Ltd.

- Don & Dick submit suggests re modification to exist S.R. (+ Eston lots) w view of Titan participation. ^{with J.E.M.}

* M.S. & R.A.B. agree that E.M. (Titan) and some present drilling of Gem - Silver Dollar - Bluebird. (not present @ 4" / ft.

first 100' @ 4" / ft

100-120 - 5" / ft

> 120 - 6" / ft.

* In S.R. note apply by I.P. to strip zones sericite - Kaolin, talc - chlorite by both authors.

* Dick to send map showing re-staking done, names, yr's, dates.
