Kendal Creek Property

Dear Dick:

Enclosed please find the assays taken during my second last trip to Terrace.

I am sorry that we did not obtain any silver values on the Hope Silver samples. Your additional samples from Hope Silver have been sent for assay.

Please note that at Kendal Creek we have a better assay on the limestone conglomerate. The one sample (0.68 Cu) was admittedly a picked sample; the other (0.44 Cu), however, appears to be more representative.

The samples taken during my recent trip are being assayed.

We are looking forward to hearing about your work on Kendal Creek.

Best regards.

Yours very truly,

John DeLeen.
