

Phone Call + 1/2 hour. From Mike Beley today
July 12. (a.m.): subsequent to call from Dan.

Mineral Hill Details

800955

Soils sent to Raringer: results not yet back.
300 for Cu-Mo-Ag ("A2-A3"/"upper" C")
These largely over rhomb. between alashite
& Q.B. zones

O.D. sampling commencing prior to receipt
of geochem. results.

W.S. suggest start on line 4N.

1st hole @ 4N; 0+80E to calibrate against
DDH # 14.

Thence to 600 N. X-section.

Thence to 1000 N. X-section.

Then, while awaiting Cu-Mo-Ag assay
results of above. from Eldridge, jump to
fill-in Q.B.-alashite zone (rhomb).

* Dan advised to send me M.B. Progress
Rept. Min. Hill to mid-June 1967.

HALL GROUP John Iwancic mapping geol + dr. map here.
map. on 400' x 100' sp. W.S. sugg. close to 50'/25' loc.

Microwave Hill - M.B. estim. lat. 8 days.

D9G lat just commenced trenching; on pattern
laid out by W.S. (report). Then will
trench on new Cu-Pb-Zn showings (old pits) at
500'-600' behind microwave tower - map
pending. T. Kellner mapping here.

Results 322 soil samples (Zn's) pending here.

Re. Pluck into M.B. advised will be sending
trenching plan to Bill Y-O who can forward
this to Eddie Westgarde.
