MR. F. A. MCGONIGLE,
PRESIDENT,
CONSOLIDATED SKREENA MINES LTD.,
716 - 602 W. HASTINGS STREET,
VANCOUVER 2, B.C.

DEAR FRITZ:

THE FOLLOWING IN REPLY TO YOURS OF SEPT. 21ST;
THE TOMMY GROUP APPEARS TO BE O.K. UNTIL
NOVEMBER, 1970. (INCL "CHALCOCITE"-"MALACHITE" M.C.S.)

THE NESBIT GROUP (H.N.-V.V.E.N.) SHOWINGS COULD
BE HELD BY PAYING THE 400.00 ASSESSMENT ON
THE H.N. # 1 - # 4 BLOCK - AS AGREED EARLIER
THIS YEAR. FURTHER INVESTIGATION OF THIS AREA
AND GEOLOGICALLY FAVOURABLE GROUND TO THE
SOUTH AND EAST WILL REQUIRE A ZEBALLOS -
SCALE GEOCHEM. ETC PROGRAM, WITH TRUSTWORTHY
CREW SUCH AS MICKELSON AND KNOX.

ZEBALLOS DRILLING IS OUT UNTIL THE WATER
SUPPLY RETURNS - (NOVEMBER?). BY LATE FALL
THE WEATHER MAY BE TOO ROUGH TO STAGE THE
SCHEDULED SURFACE D.D. PROGRAM. THE
ALTERNATIVE LONG GAMBLE HERE - AND WHICH
I FEEL TO BE A MAJOR RISK - IS TO DRILL
UNDERGROUND FROM THE FACE OF OLD C. Z. NO. 2 DR OR
X-CUT TO 500' - 800' PER HOLE TO TEST THE WESTERLY
A DOWN DIP (1500' LOWER) EXTENSION OF THE ZONE.
AN INSPECTION OF NO 2 LEVEL AND GEOLOGICAL
TRAVERSE UP THE ROUGH WEST FORK OF BIBB
CREEK WOULD BE NECESSARY PRELIMINARIES.

2 - MR. MCCONICLE, SEPT. 22/65

THERE WOULD BE NO GREAT DIFFICULTY IN CLEARING HELIPORT SPACE TO THE WEST OF, AND IN FRONT OF NO. 2 PORTAL. I CHECKED THIS LAST TRIP IN.

RE THE FIDLER GROUP, I COULD TAKE ANOTHER LOOK AT THIS EARLY NEXT WEEK, TRY A FEW SOIL SAMPLES, AND LAY OUT SOME CROSS-STRIPPING ON THE EXTENSIONS OF THE MAIN SHOWING. IF THE RESULTS JUSTIFY IT, WE COULD DRILL HERE AT ANY TIME. PAUL ANARIEFF NOTES HE HAS A MACHINE AVAILABLE. ALLIN KNOX COULD LOOK AFTER SOME WORK HERE AFTER HE HAS THE C.G.Q. COMMITMENT OUT OF THE WAY.

Point out to Fred that Sheena needs more than Vanter.
AT PRESENT, THE BEST BET FOR A REASONABLE & SOLID PROGRAM IS THE "E.M." GROUP. BUT YOU WILL HAVE TO COME TO TERMS WITH THE BURRS ON THIS.

ALSO NOTE WE HAVE A LITTLE BIT OF TRENCHING TO DO AT HARRISON L. 1 AND I THINK WE WILL HAVE TO DO SUFFICIENT ON THIS TO DETERMINE THE CAUSE OF THE E.M. - GEOCHEM. ANOMALIES ON THE BUG GROUP. THIS ONE IS EASY TO KEEP AN EYE ON.

CURRENTLY I HAVE AN APPRECIABLE AMOUNT OF OFFICE WORK TO DO ON THE SMITHERS & STIRKING PROJECTS. THE AMOUNT OF FIELD WORK AT ROSCOE LARGELY HINGES ON WHAT DEVELOPS AND HOW MUCH READILY-USEABLE INFORMATION THE RESIDENT STAFF CAN PROVIDE.

YOURS SINCERELY,
Bill

September 21, 1965.

Mr. William M. Sharp,
161 Pemberton,
North Vancouver, B. C.

Dear Bill:

The Aspen Grove claims expire shortly so we have to make up our minds what to do about them.

I have no word about rain at Zeballos so, what do you know? — Poss. sufficient water by Nov. but helicopter transport difficult.

To get Skeena moving, you should start to do something on the Fidler group. How soon can you?

The foregoing are only three of our current problems. Let's have a get-together real soon to map out a program.

With best wishes.

Sincerely,

CONSOLIDATED SKEENA MINES LTD.

F. A. McGonigle,
President.
