

Attn Fritz:

Mountain Boy:

40. J. O. La Francoise, Mgr.
(R.C. Church.)

P.O. Box 1240, Place D'Armes,
Montreal, Quebec - some prev. attempts
to acquire neg. but with a letter,
4,326,847 / 6,000,000 sh.

loc. on American Cr. - a tribut of the Bear
River - Stewart.

One prospect adit under O'cut drain 286'
60T → 32,810 of Ag. (≠ 500 of Ton)
1964 Pete Swedberg, Stewart recommends
acquisition & believes held by same group.

at EL 2200' a fractured zone is replaced
by 92. Calcite, brinite, sphal. galena, py &
cpy across a width of 25' Stikes east &
up-hill seems to end in small shyers &
downhill is covered w. talus.

Another showing @ 2000' strikes N, dip 30°W.
is 8' wide & sparsely mineralized w. sulphate
but contains a streak of higher grade ore.
Streak up to 18" wide & contains Ag minerals
as well as gal. & sphal.; 4 Ton of peaked
ore → 1100 of the Ag.

On Sept 10, w.s. to look at Moly at Penikese
(ore body) and silica at Boundary Falls.
Fritz could set this up earlier, if desired or
await results on May group samples.

~~Folder zone - Jimmy Taylor knows Fritz from prev. work
suggests try to acquire from W. W. Gallagher. estimate
book. Initial pay't requ'd on vac. of 4000 \$.~~

~~Neck of zone - Jim Taylor also recommends - This part
of old G. Graham estate. H. Hill prev had connection here.~~
