- #1. @ 120' in 5900 adit
- #2 on N. wall across 12"
- #3 on S.W. side near floor. - a great good section
- #4. across V. in face of drift.
- #5, face of drift in h.w. of vein.

C.K. notes "sure too bad we didn't get in another 30-40 feet; I think 6040 portal is quite close to (that) position."

X-cut, below 6040 Dr.  
Feb. /68.

C.K. Note "6040 should be about 175' higher in el." - meaning?

Scranton  
5900 Adit  
7" = 20'
