

Turned down by [unclear] of an [unclear] + check he [unclear] surrounding ground

Telkwa Mining Ltd - options
TELKWA near Ishikawa is on informal negotiations

801450

No camp; foot access from [unclear] 2 1/2 mi. end of [unclear] to [unclear] & [unclear] to [unclear]
48 claims stated in name of Telkwa [unclear]
mines; status O.K. around #128 @ 2000'

Pending [unclear] - J.P. [unclear] will put [unclear] [unclear] [unclear] around [unclear] 48 claims.

Know [unclear] give by early July.

Showings over fairly large area. Need air photos

Showings Sampled

Sample #1 - Corpe for 3 narrow, [unclear] [unclear] [unclear] [unclear]
few" to a foot wide Ag. 1.64, Cu 2.92
#2 of [unclear] - chlor [unclear] in short [unclear].

([unclear] or multiple - v) Ag. 0.54; Cu 4.42

#3 of [unclear] at contact between flat-lying [unclear] & [unclear]
not [unclear] by geologist the granite stock showing reported as 20' thick x 60' long
meas. along face of cliff - above slide [unclear] [unclear]

Sample of mineral in @ Ag 2.0; Cu, 4.2²; Zn, 2%

are fresh; are usually near [unclear] [unclear] [unclear]

Stain [unclear] - ore in 2 parallel crushed zones [unclear]
near [unclear] @ 2'-3' widths

ben [unclear] in - cp. [unclear] with some [unclear] 93
in narrow [unclear] from a few" to a foot wide
Strike N few ° E to almost due East.

A shot 20' [unclear] has been done on a
series of N.W. parallel [unclear]

Showings only suggest possibility of large
concentrations. Mr Edward Greer would

accompany up geologist on this

ph to Mike - Essentially a geol. [unclear] (like Pitt L), Mike agrees
clav. [unclear] of season + early fall winter access
not for Kennedy.
