Mr. F. A. McGonigle,  
Consolidated Skeena Mines Ltd.,  
716 - 602 W. Hastings St.,  
Vancouver 2, B. C.

Dear Mr. McGonigle,

Canford Property of Mrs. Racine - Merritt, B. C.

These 16 claims lay South of Skeena's Canford Group. They are at the 4700 ft. elevation summit in the headwaters of Pony Creek. Some of the claims over-lay the Copper - Hill property, as shown on the attached map.

Mrs. Racine owned 4 claims, ( staked for her at \$ 20.00 per claim ) and acted as attorney over the other 12 claims. Twelve claims have since been re-staked by her son, since they expired.

The rock is soft, brown scoria basalt, with calcite and zeolites.

The reported copper mineralization is that found on the Copper - Hill property, and the green colouration of the zeolites

Soil samples on a slope to the West side of the West fork of Lindley Creek, show some copper by rubeanic test.

Mrs. Racine was probably the victim of a con game in the location of the claims.

Respectfully submitted,

John E. White
